

In English

The Norwegian Directorate for Education and Training is the executive agency for the Ministry of Education and Research. We are responsible for kindergartens, as well as primary and secondary education.

ARTIKKEL | SIST ENDRET: 15.05.2023

Our responsibilities

The Directorate has the overall responsibility for supervising kindergarten, education and the governance of the education sector, as well as the implementation of Acts of Parliament and regulations.

The Directorate is responsible for all national statistics concerning kindergarten, primary and secondary education. On the basis of these statistics it initiates, develops and monitors research and development.

The objective of the Directorate is to ensure that all children, pupils and apprentices receive the high quality education they are entitled to.

Facts about Norwegian education

In our publication [The Norwegian Education Mirror 2022](#) you will find statistics and analysis about kindergartens, primary and secondary education in Norway. The publication tracks the pupils' entire educational trajectory from kindergarten to upper secondary education or training.

You can also find facts about the state of education in Norway in [Education at a Glance 2022](#), OECD.

Dictionary

We have developed a Norwegian-English/English-Norwegian Dictionary for the Primary and Secondary Education Sector.

The Norwegian education system

Assessment and recognition of foreign vocational education and training

The Norwegian Directorate for Higher Education and Skills assesses the scope, level and vocational content of foreign vocational education and training in comparison to a Norwegian trade or journeyman's certificate.

Norwegian vocational education and training (VET)

VET is part of the formal upper secondary education system in Norway. From the school year 2020–21, upper secondary VET in Norway covers 10 education programmes that lead to more than 180 different trade or journeyman's certificates.

Certificates and grading scales

Here you will find information about the different types of certificates, the Norwegian grading scale and validity.

Curricula and framework plans

Curriculum for Primary, Lower Secondary and Upper Secondary Education

The Curriculum for Primary, Lower Secondary and Upper Secondary Education comprises two parts: the Core Curriculum and subject curricula for each subject. New subject curricula were in place from August 2020.

Framework Plan for Kindergartens

Framework Plan for the content and tasks of kindergartens entered into force on 1 August 2017.

Framework Plan for SFO

This framework plan applies to the work in out-of-school-hours care (SFO). SFO must facilitate play, cultural and leisure activities based on the age, functional level and interests of the children, and provide the children with care and

supervision.

Framework for Basic Skills

This Framework is a tool for subject curricula groups appointed by the Norwegian Directorate for Education and Training to develop and revise National Subject Curricula.

Quality and well-being

Quality in Norwegian Early Childhood and Care, Schools and Vocational Education and training
